

OFFCAMPUSCAREER JOB BOOTCAMP COURSES

Software Development • Web Development • AI Integrated in All Bootcamps

In today's competitive tech landscape, **AI-powered development** is the new standard. OffCampusCareer Job Bootcamps equip you with **core engineering skills**, **real-world project experience**, and **AI tools mastery** — whether you choose Software Development or Web Development. Graduate job-ready with a verified portfolio, industry certifications, and guaranteed internship placement.

OffCampusCareer by the Numbers

1,000+ Students Placed	5,000+ Interviews Conducted	16,000+ Community Network	Pan-India Hiring & Training

About OffCampusCareer & Leadership

OffCampusCareer is the flagship career platform of **SHAMIIT** (Shami Innovation and Technologies LLP), Noida. Founded by **Vinay Prem Upadhyay** (20+ years in IT, HR & EdTech), it bridges the gap between university academics and industry demands. Our programs deliver **practical execution**, real-world project portfolios, certified credentials, and verified corporate placements.

Core Bootcamp Specializations

SOFTWARE DEVELOPMENT

Master core programming, system design, and scalable engineering.

- **Languages:** Java, C++, Python, OOPs & design patterns.
- **DSA:** Arrays, Trees, Graphs, DP, Sorting algorithms.
- **Engineering:** Git, Docker, CI/CD, System Design.
- **AI Tools:** Copilot, Cursor IDE, automated testing.

WEB DEVELOPMENT

Build interactive frontends and scalable, high-performance backends.

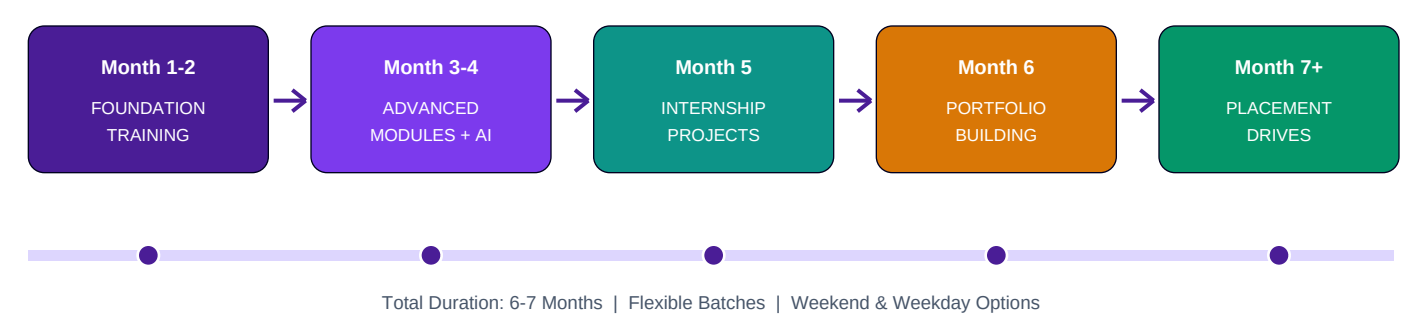

- **Frontend:** HTML5, CSS3, React.js, Next.js, Tailwind.
- **Backend:** Node.js, Express.js, REST APIs, WebSockets.
- **Databases:** PostgreSQL, MongoDB, Redis caching.
- **AI Features:** LLM APIs (Gemini/OpenAI), chatbot deploy.

■ AI Integration (Included in ALL Bootcamps)

AI is no longer optional — it is a **core engineering competency**. Every bootcamp includes dedicated AI training modules to ensure you graduate as a modern, efficient developer:

- **AI Code Assistants:** Leverage GitHub Copilot & Cursor IDE for code completion, docs, and rapid debugging.
- **LLM API Integration:** Query Large Language Models (Gemini, Claude, GPT) programmatically.
- **Vector Databases & RAG:** Implement Semantic Search & Retrieval-Augmented Generation with Pinecone/ChromaDB.
- **AI Capstone Project:** Build & deploy a custom AI assistant, smart search engine, or automated agent.
- **Prompt Engineering:** Master prompt design patterns for production-grade AI applications.

■ Course Duration Roadmap

■ Curriculum Breakdown by Month

Month	Software Development Track	Web Development Track	AI Module
M1	Programming Fundamentals (Java/C++/Python, OOPs)	HTML5, CSS3, JavaScript ES6+ Responsive Design	AI Tool Setup Copilot & Cursor
M2	Data Structures & Algorithms Sorting, Searching, Recursion	React.js, Component Architecture State Management	Prompt Engineering Basics
M3	Advanced DSA: Trees, Graphs Dynamic Programming	Node.js, Express.js REST API Development	LLM API Integration (Gemini/OpenAI)
M4	System Design, Docker CI/CD Pipelines	MongoDB, PostgreSQL Authentication & Security	Vector DBs & RAG Semantic Search
M5	Internship Project Phase Enterprise Software Build	Internship Project Phase Full-Stack Web App	AI Capstone Project Build & Deploy
M6	Portfolio & GitHub Optimization Code Review Sessions	Portfolio & Deployment CI/CD for Web Apps	AI Agent / Chatbot Integration
M7+	Placement Drives Interview Prep (Pro Plan)	Placement Drives Interview Prep (Pro Plan)	AI-Powered Resume & Interview Coach

■ Choose Your Bootcamp Plan

We offer **two outcome-focused plans** designed for different career goals. Compare features side-by-side, then choose the plan that fits your ambitions.

Feature	BASIC ■14,999	PRO ■24,999
Comprehensive Training (Live + Recorded)	✓	✓
AI Modules (Copilot, LLMs, RAG)	✓	✓
Virtual Internship (1-Month Remote)	✓	✓
Course & Internship Certification	✓	✓
Developer Community Access (Lifetime)	✓	✓
Real-World Portfolio Projects	✓	✓
Professional Resume Writing	✗	✓
LinkedIn Profile Optimization	✗	✓
Interview Preparation (Unlimited Mocks)	✗	✓
Job Interviews & Placement Drives	✗	✓
Internship Offers from Partner Companies	✗	✓
Lifetime Placement Support (till Joining Letter)	✗	✓
Dedicated WhatsApp Coordinator	✗	✓

BASIC PLAN

Training & Internship Only

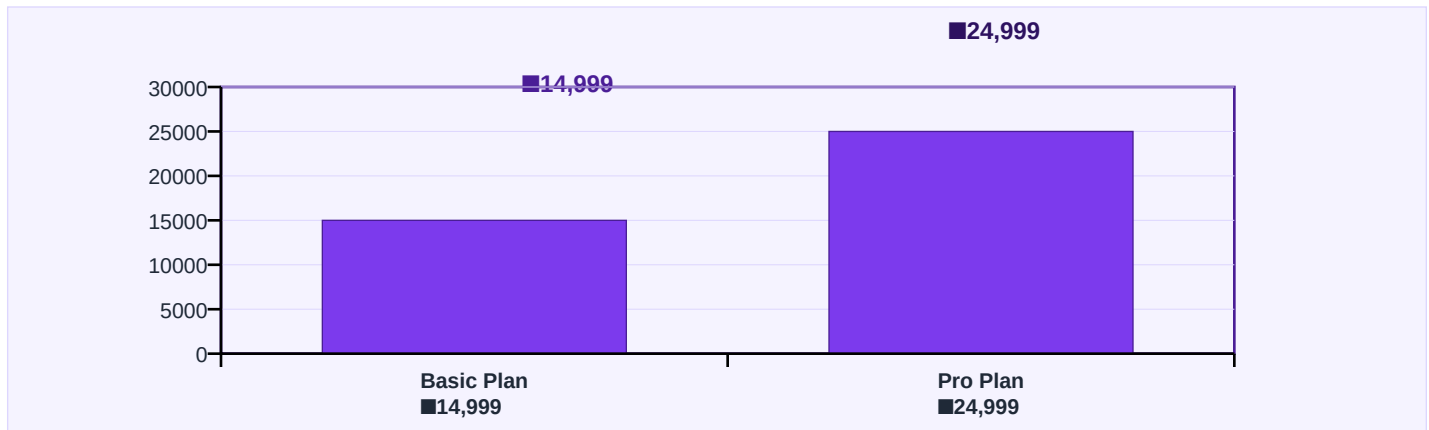

- ✓ **Comprehensive Training:** Full access to live coding classes & recordings.
- ✓ **AI Coursework:** Integrated AI tools & LLM API modules.
- ✓ **Virtual Internship:** 1-Month remote internship at SHAMIIT/partner.
- ✓ **Certification:** Verified course & internship credentials.
- ✓ **Community:** Lifetime peer networking access.
- ✓ **Portfolio Projects:** 3 real-world project builds.
- Resume Writing & LinkedIn Optimization
- Interview Prep & Job Placements
- Lifetime Placement Support

PRO PLAN

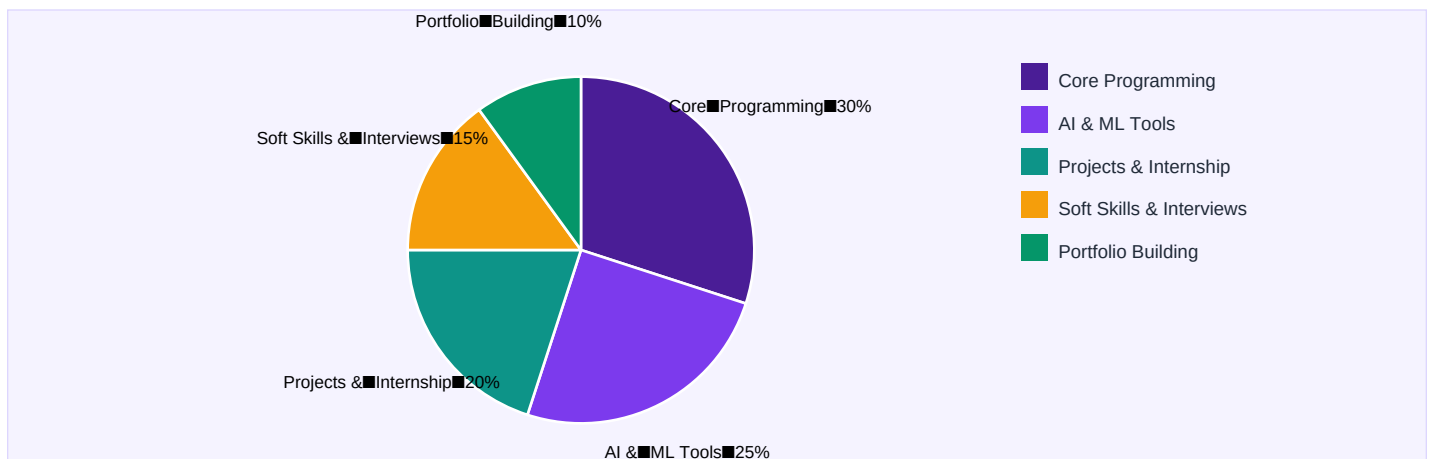

Training + Internship + Lifetime Placement

- ✓ **Everything in Basic** — full training & internship toolkit.
- ✓ **Resume Writing:** ATS-optimized professional resume creation.
- ✓ **Interview Preparation:** Unlimited mock technical & HR rounds.
- ✓ **Job Interviews:** Direct placement drives & company interviews.
- ✓ **Internship Offers:** Partner company internship referrals.
- ✓ **LinkedIn Optimization:** Professional profile rewrite.
- ✓ **Real World Projects:** Enterprise-grade build, deploy & scale.
- ✓ **Lifetime Support:** Continuous guidance **till you receive your Joining Letter.**
- ✓ **Dedicated Coordinator:** 1-on-1 WhatsApp support.

Your Complete Career Journey

"When education becomes practical, dreams turn into careers."

— Vinay Prem Upadhyay, Founder & CEO

■ PRO PLAN — LIFETIME PLACEMENT SUPPORT

- ✓ Resume Writing • Interview Preparation • Job Interviews • Internship Offers
 - ✓ LinkedIn Optimization • Real World Projects • Dedicated WhatsApp Coordinator
- Support continues until you receive your Joining Letter — Lifetime guarantee!**

■ ENROLL TODAY & GRAB THE OPPORTUNITY FIRST!

Limited seats available for the upcoming bootcamp cohort.
Master AI-powered development, build your verified portfolio, and launch your tech career.
